

DocupletionForms – Integrator Affiliate Program

Drag-and-drop middleware for client workflows.

Recurring affiliate revenue. Zero maintenance.

What DocupletionForms Is

DocupletionForms is reusable middleware integrators drop into multiple client workflows to handle advanced conditional intake logic and clean PDF generation—without custom code. It sits between intake and automation, deciding what data should exist before Zapier moves it downstream.

How Integrators Use It

- Build reusable templates using your NFR (Not-For-Resale) account
- Drop DocupletionForms into client workflows as middleware
- Sign clients up directly on a subscription plan
- Earn ongoing affiliate commissions automatically

Client Pricing (Easy to Recommend)

Plan	Best For	Price
Single Seat	Solo operators, SMBs	\$15 / month
Team (8 seats)	Firms, nonprofits, departments	\$87 / month

Why Integrators Like It

- Reusable across multiple clients
- Reduces custom scripting and edge-case logic
- Fewer downstream support issues
- Zapier-ready and stack-agnostic
- Low-friction client approval

Affiliate Program

Earn ongoing monthly commissions for every client you refer. Commissions continue as long as the client remains active—no caps, no clawbacks. Many partners also refer other integrators into the ecosystem.

Where It Fits in Your Stack

Forms → DocupletionForms → Zapier → CRM / Docs / Email

DocupletionForms handles logic and document generation before automation begins.
